

H-10C

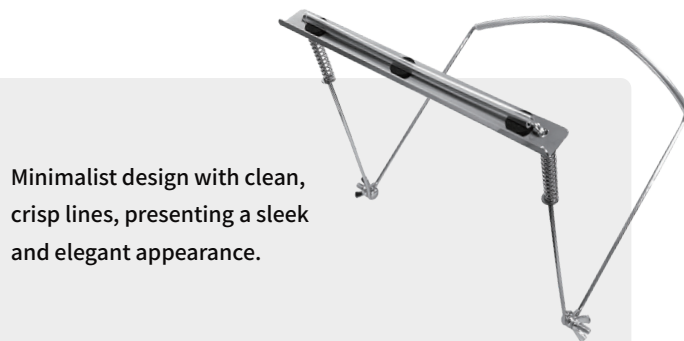

Purpose-built for performances, this holder allows you to play a harmonica while using other instruments. A chrome-plated finish delivers a polished look and long-lasting rust resistance. The clamp opens up to 5 cm, easily fitting harmonicas of different sizes, while soft foam and rubber pads protect against slips and scratches. A rubber-wrapped neck band ensures comfortable, stable wear for extended sessions.

Standard Size :

Compatible with various harmonicas to meet diverse needs; easy to install for quick setup; widely applicable, offering greater practicality and versatility.

The neck area is wrapped with rubber material to effectively reduce pressure, enhancing comfort and stability during use.

Minimalist design with clean, crisp lines, presenting a sleek and elegant appearance.

Equipped with a wing nut for easy angle adjustment and secure fixing, ensuring stable and firm structure.

Dual-spring fixation design distributes force evenly for a stable structure; wrapped with soft rubber to prevent slipping and enhance protection.
