

## K-105-7BN

Thick tube design ensures a sturdy and durable structure for reliable long-term use; the black textured matte finish offers a refined, professional appearance; the enlarged solid music tray fits various sheet music securely without slipping; and the detachable tray with adjustable height makes storage and transport more convenient.

### Adjustable Panel Angle :

Angle can be flexibly adjusted as needed, maintaining stable support without loosening, enhancing comfort and convenience during use.

The panel features a detachable design with a snap-lock mechanism, securely holding sheet music in place to prevent slipping or dislodging.

Simply turn the lock to slide out the music tray; intuitive and effortless operation allows easy assembly and disassembly, making it convenient to carry and store.

Large solid music tray design for a smooth and aesthetically pleasing surface; elastic sheet holder effectively secures the paper in place.

The center column is made of durable plastic, with freely adjustable height up to 142 cm.
